

GET THE MOST OUT OF LIFE

Surf Life Saving is more than saving lives on the beach. It's Teaching the community about water safety that can help them to protect their life. We aim to reach out to all Tasmanians through education & community programmes.

» OUR MISSION

We save life, protect life and believe in the great Australian way. We promote leadership & personal development for our members. We offer mateship, training, education & experience.

GET INVOLVED

Surf Life Saving is a cause that receives donations from Australians from all walks of life. Without continual support they are unable to perform their services effectively, and every contribution you give saves lives. That's what it means to be "Australian for Life".

SPONSORSHIP

Bridport is a picturesque seaside town on the North East Coast of Tasmania. With over 10km of popular swimming beaches each summer the town swells from a resident population of 1350 to over 6500.

Bridport Surf Life Saving Club was established in 2010. Surf Life Saving Tasmania receives a small amount of direct Government funding which it distributes to clubs to offset some of each club's public liability cost & provides support for the club. However, all expenses from each club must be met independently through fund raising activities of the members, through grants and through organisations like yours becoming a partner & helping to provide life saving services for the entire North East Region of Tasmania.

Bridport Surf Life Saving Club was formed to provide the community of Bridport with a safe beach & water environment through the provision of essential life saving services. Bridport SLSC is now an incorporated charitable emergency service organisation. The club aims to ensure that life savers have the basic equipment required to respond to beach emergencies and promote the safety of all users of our aquatic environment. Bridport SLSC provides the only surf life saving service on the North East Coast.

READY RESCUE SERVICE

Bridport SLSC has formed a partnership with Tasmania Police, Coastal Marine Rescue & SES to become a 24/7 ready rescue service for the North East Coast extending to Bass Straight & the Furneaux Islands in times of emergency.

This Ready Rescue Service to the North East requires ongoing funding as well as the purchasing of medical response equipment required to train future surf life savers. Funding is also needed to provide patrols as well as nippers & youth programmes for the future leaders of our community.

We would like to invite your organisation to become a partner with Bridport SLSC. Large National sponsors like Westpac, DHL & Telstra have chosen to partner Surf Life Saving Australia. They recognise the fantastic opportunities afforded by having their brand associated with this iconic community service that life saving provides. Bridport SLSC has deductible tax recipient & charity concession status.

YOUR SUPPORT

By supporting Bridport SLSC you will be supporting a whole community. BPSLSC aims to serve their community in the following ways:

Beach patrol service, North East Ready Rescue Service, education opportunity for families in the beach community, including an opportunity for families to become physically active & is not gender, age or ability exclusive.

AS A PARTNER OF BPSLSC YOU WILL -

- Create increased brand awareness.
- Create an early association with this iconic community service for Tasmania.
- Receive community recognition via promotion through the club.
- Earn positive public relations.
- Have the opportunity to be part of "The Life of the Beach" in your community.
- Be investing in today's youth & tomorrow's leaders.
- Encourage the community to get involved.
- Receive increased social benefits.
